

Exploratory Spanish Curriculum Map

REAL LIFE LANGUAGE

A routine-driven, immersion-first scope & sequence. Each lesson lists concise targets, core routines, signature activities, assessments/artifacts, and materials. Use as a plug-and-play pacing guide or as an at-a-glance map for planning, sub plans, and parent communication.

Course Philosophy

- Keep it simple & immersive. Prioritize comprehensible input, movement, and meaningful use over large reading loads.
- Routines first. Daily cycles (attendance in Spanish, pledge, calendar/weather, quick emotions check, class commands) frontload the language that unlocks later tasks.
- Flexible entry points. Works as elementary supplement, exploratory/immersion strand, Spanish 1 core, or conversational course.
- Assessment through doing. Frequent games, mini-performances, quick checks, and projects anchor evidence of learning.
- Routines, school, feelings
- Verbs, likes, numbers, descriptions

- Body parts & project
- Calendar/weather → food → restaurant
- Birthdays & alphabet
- Clothing & market
- Emotions focus
- Time
- Family & schedules
- Synthesis & showcase

Use this map to jump ahead or spiral back as your learners' routines become automatic.
