

## **Overview of Traditional Spanish Curriculum (Levels 1-4)**

I curated this overview of what is typically taught in Spanish levels 1 through 4 to provide general insight and help set expectations as you build your course.

That said, I want to emphasize something important: make your class work for you. Use this framework as a guide—not a rulebook.

Many traditional programs heavily emphasize grammar and expect students to “master” it. However, I firmly believe that students can learn and use a language effectively without being able to explain every grammar rule. I personally do not lead with grammar.

If you look at many modern textbooks, grammar is now placed at the end of each chapter, which reflects a shift in thinking: grammar supports communication—it shouldn’t drive it.

For example, the subjunctive is often introduced early (sometimes even in Level 1, through commands), which can make transitioning into full subjunctive structures in Level 2 much more natural. That’s a great example of how to embed grammar within context, not isolate it.

So again—do what works for you and your students. This curriculum outline is meant to offer a flexible starting point as you design your courses.

## **Overview of Traditional Spanish Curriculum (Levels 1-4)**

This overview outlines what is commonly taught in Spanish Levels 1 through 4 to give educators a general framework and reference point when designing their own courses. Use this as a flexible guide, not a rigid checklist.

### **A Note on Grammar**

While grammar is often emphasized in traditional programs, remember that:

- Students do not need to explain grammar rules in order to use the language

effectively.

- Communication should come first; grammar should support it.
- Many textbooks now place grammar at the end of each chapter, signaling a shift away from leading with rules.

Tip: Introduce grammar in context. For example, commands (often taught in Level 1 or 2) offer a natural entry point to the subjunctive mood without formal grammar instruction.

## **Curriculum Snapshot**

### **Level 3**

- Imperfect tense and contrast with preterite
- More advanced irregular verbs
- Future and conditional tenses
- Deeper use of the subjunctive (wishes, emotions, impersonal expressions)
- Object pronouns and compound tenses
- Cultural focus: global issues, daily life across cultures, current events
